

First Run Out for ICD Rugby Team

Our new Year 9 and 10 rugby team recently played in a High Schools' Rugby Tournament played at Dromore RFC. This is the first time ICD have competed in an Ulster High Schools' Rugby Competition.

Nick Gamble, Rugby Coach at ICD said, "The lads showed great commitment leading up to the competition with some intense training sessions. It was a great challenge for them to play four other schools and the team were very keen to compete." The accolade of Player of the Tournament for ICD went to Ciaran McCrudden. Ciaran made a couple of great tackles and carried the ball well, always looking for space and opportunities.

The team now trains after college under the guidance of Nick Gamble in preparation for a forthcoming friendly against Armagh Integrated College.

Year 10 Netball team reach the final of Cross-Community League

The Year 10 Netball girls from ICD succeeded in getting to the final of the Alpha League after convincing wins over Armagh Integrated College and Fivemiletown College in the group stages. ICD girls found themselves in a playoff situation with Fivemiletown with the winner progressing to the final to meet Cookstown High School.

The game was a home fixture for the Fivemiletown side and after a very closely contested first half the ICD side found themselves leading by the narrowest of margins, 5 - 4 at the interval. At the restart the ICD girls wasted no time in settling down and began to be more clinical in their defending and passing. The pressure was relentless especially from the defence who kept a clean sheet in the second half by conceding no goals. The final score 11 - 4 sees our girls go on to play Cookstown High School in Dungannon Leisure Centre.

The ICD Netball Team group for a discussion on how best to beat their opponents.
