

6th Form students Alan Cummings and Luke McCall present a cheque for £563.60 to Mr Brian McCluskey, Area Appeals Co-ordinator from the Northern Ireland Chest, Heart and Stroke Association

ICD Students and Staff go Head to Head for Charity

The staff and sixth form students from the college recently went head to head against each other in a charity soccer match. The game was organised by A' Level students; Luke McCall, Alan Cummings and Head of PE, Mr Rice. By paying to watch the match students raised £563.60 for Northern Ireland Chest, Heart and Stroke Association.

New Staff at ICD

Laura Leeman, Tutor of English as an Additional Language.

This position was created to enhance the support available to our International students and their parents. Laura will liaise with international students and their parents on arrival to the college to assist with their induction into college life. She will also provide lessons to small groups of international children who do not have English as their first language.

Robert Bell, Sixth Form Study Supervisor

Due to the growth in Sixth Form, Robert was appointed to assist Sixth form students with all aspects of college life outside the

classroom. This entails study supervision, pastoral care, UCAS applications and Educational Maintenance Allowance administration.

Comenius Assistant for ICD

Olá! My name is Cristina Fontes and I'm Portuguese. I come from a sunny, but also rainy, small town, near Porto, in the North of Portugal, where I teach Portuguese and English.

I arrived in Northern Ireland on the 3rd of January, my birthday, and I couldn't have had a better present: snow and a warm welcome...what a great combination! For the next six months, I'll be working as a Comenius Assistant in Integrated College Dungannon. I hope I can help the international students to integrate into the community and at the same time draw other students' attention to the European world beyond school and their own community. I'll be thrilled to teach the main student body and college staff the language and culture of my home country. "Learning together" will be my priority during my stay in Northern Ireland.

Year 11 student Sinead Hardy, pictured in the Hairdressing Department of South West College. The college is pleased to offer Year 11 students the opportunity through collaboration to sample a variety of different skills offered at South West College. Skills offered include; Beauty, Hairdressing, Catering, Bricklaying, Joinery, Electrical Engineering and Digital Imaging.
